

One Day Workshop FAQs

1. What is the cost of the workshop? \$375.00 per student plus the cost of travel for the instructor to include hotel and gas. Payment is made upon reservation and confirmation of the workshop or within two weeks of confirmation and invoicing.
2. If I only have three students, how much is the cost? There is a 6 student minimum.
3. What is covered in the one day workshop? About 80% of the two day workshop will be covered. Patient Safety, Cast removal, Short arm, Thumb Spica, Long arm and Ulnar gutter. Lower extremity (short leg) is not usually covered, but can be added if one upper extremity cast is removed..
4. What times are the workshops? The workshops are held on Saturday and usually run from 9AM to 4:30PM. We can cover more information because these workshops are limited in size to only 10 attendees.
5. Whose supplies do you use? We use your supplies. Your practice is responsible for supplying all casting consumables and cast cutters. We will coordinate what supplies you need to order.
6. Is the workshop continuing education approved? Yes. The workshop is pre-approved for 7 hours for Physicians Assistants, RN's, NP's, LPN's, MA's, Radiologic Technologists and Athletic Trainers. Athletic Trainers can earn all 50 of their required CE by completing the various distance learning modules and the OPE exam included with the workshop. All others can take the ROT exam included with the workshop.
7. How do I set up a workshop? Just email Charles Barocas at asop.charles@gmail.com. Include your full practice address, number of attendees and future dates you would like to hold the workshop.
